Dear Sir AND Madam

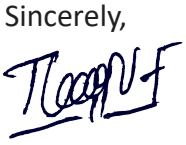

I am writing to express my interest in the Web Developer position at your company. I hold a Bachelor's degree in Management Information Systems and have three years of experience in web development. I am confident that my skills and experience would allow me to contribute effectively to your team.

In my previous role at Khmer Gaming Software Solution Co., Ltd, I was responsible for developing responsive and user-friendly web applications using HTML, CSS, JavaScript, PHP, and Node.js, along with modern frameworks such as React.js, Laravel, and Vue.js. This experience has provided me with a strong foundation in both front-end and back-end development, as well as a solid understanding of UI/UX design principles.

Additionally, I have experience providing technical troubleshooting and support, both in laboratory environments and independently. My technical skills also include repairing hardware and software issues on laptops and desktops, fixing smartphones, and setting up office network connections.

Thank you for considering my application. I would welcome the opportunity to discuss how my background, skills, and passion for web development can contribute to your organization. I am available for an interview at your convnience and can be reached at 096 779 7762 / 078 783 645 or via email at tienchamrern2@gmail.com

Sincerely,

TienG ChamrerN
